

Product Description: Crosby has adapted their Bullard Golden Gate style BL-D Shank Hook to fit Harrington Hoist products. The BL-D's shank is machined to fit Harrington's hook yoke. It simply replaces the standard Harrington hook. According to Crosby's literature, the BL-D features:

- Rollox Gate is self-closing and lockable in the closed position until the operator releases it.
- Rollox Gate is a rugged brass alloy casting and opens a full 160 degrees.

Application Notes: The BL-D is suitable as either a top or a bottom hook. As a bottom hook it can be used on hoists with either single or multiple falls of chain. A special yoke is required when used on products that have riveted yokes as standard. The BL-D is useful for applications where it is desired to have a positive captivation of the load in the hook's saddle. The rugged Rollox Gate is lockable to help prevent the escape of the load from the hook's
