

Purpose

To provide a listing of the standard options available to the customer for the RH Wire Rope hoists and trolleys.

Background

HHI determined that there were certain items on the RH hoist and trolleys that not all customers would want or need. It was decided to make those items optional equipment, so that those customers not wanting the equipment would not need to pay for it. The items would be available, at additional cost, for those customers wanting or needing the equipment.

Options

Pendant and Pendant Cord

The RH Hoist/Trolley will use the same pendants and pendant cord as is used with the Kito Chain Hoists/Trolleys.

Pendant cord is cut to customer requested length as with the Kito hoist with 1.5 feet added.

Power Cord

The RH Hoist/Trolley will use the same power cords as are used with the Kito Chain Hoists/Trolleys.

Power cord is cut to customer requested length.

Universal Eye Bolt Kit – Part Number By Hoist Frame Size (Reference EDOC0172)

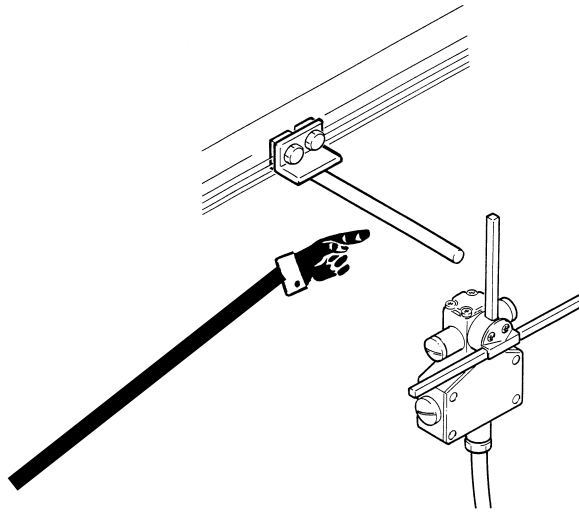

Size 1 – Part Number, DRH1A0KG0

Size 2 – Part Number, DRH2A0KG0

Size 3 – Part Number, DRH3A0KG0

Size 4 – Part Number, DRH4A0KG0

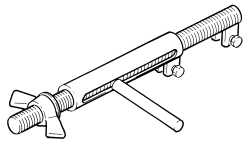

Trolley Travel Limit Switch and Limit Switch Stricker

Limit Switch Striker
Part Number, DGR110160

Travel Limit Switch
Part Number, DMT7A00F1

Rope Guide Tool

Rope Guide Tool Part Number, DMF0A0000
